

APPLE ANTI-VIRUS

District Government supports the following anti-virus software for Apple devices.

To see if you have an antivirus software you will need to look in your Applications folder.

1. Click "Finder" and select "Applications" from the sidebar.
2. Review the list of installed applications for antivirus.

Make sure you have one of the following anti-virus softwares listed below. If you do not have anti-virus program on your device then you will not be able to access the Remote Work Portal. You are responsible for installing and maintaining an anti-virus on your personal device.
